**INTERNATIONAL
 CONFERENCE
 ON LIGNICOLOUS
 MUSHROOMS**

A fertile ground for cultivating relationships
 and practical knowledge.

GHENT | BELGIUM
 June 3–6
 2018

WOODFUNGI 2018

Now it's your time.

For decades, our mission has been to work hard to improve the cultivation quality of wood-loving fungi. Now it's your time!

You want to exchange ideas and compare practical solutions to common problems, find answers to long lingering questions, share some wisdom and enjoy recognition.

We are realizing this dream: our anniversary year 2018 is the perfect occasion to organize WoodFungi, the first international conference dedicated to the cultivation of lignicolous fungi. We are hosting a diverse group of speakers presenting pragmatic advice, we offer networking opportunities and a fantastic setting. You bring your insight, your observations and your know-how.

Come and meet fellow growers and mycelium professionals and expand your practical knowledge on Wood Fungi. To the new generation of university students: you are encouraged to participate – you are the future voice of our exciting and ever expanding industry!

The partners' program includes a visit to Ghent with its incredibly rich history and Bruges, home to no less than three world heritage sites.

"Wood Fungi like the Shiitake and King Oyster are undervalued in Europe and the US.

I see it as part of my mission to put them in the spotlight."

— **Magda Verfaillie, Mycelia**

SPEAKERS *(subject to change)*

Bio Mycotec, Germany: **Torsten Jonas**

Influence of different temperatures during the heat treatment of *Pleurotus eryngii* substrate on yield

CATÉ, France: **Alain Kerbirou**

New insights with respect to the cultivation of *Agrocybe aegerita* on pasteurized substrate

CNC Exotic Mushrooms, Netherlands: **Bert Rademakers**

Bulk substrate handling

Eco Solution, France: **Mathilde Grandchamp**

Development of a screening method to select strains of fungi allowing the production of phenolic monomers from lignin

Fine Funghi, Switzerland: **Patrick Romanens**

Study on the relationship between maturation time and yield in *Lentinula edodes*, using different strains and substrate formulations

Phillips Mushrooms: **Tina Ellor**

Production of *Hericium erinaceus*

HLP, Germany: **Ulrich Groos**

The role of the HLP as a growers' association. Figures and trends in the production of lignicolous mushrooms in Europe

Holpol, Poland: **Piotr Hamrol**

Experience with starting substrate production for Shiitake in Poland

INAGRO, Belgium: **Patrick Sedeyn**

The application of nematodes in the battle against *Lycoriella* sp.

Lambert Spawn, USA: **Chris Smith**

Potential effects of transport and storage on spawn performance

SacO2, Belgium: **Jan Van Nuffel**

Problem analysis in substrate production: a practical guide

Pilze Nagy, Hungary: **Adrienn Nagy**

Introduction of principles of bio-economy into mushroom growing - closing the loop with spent substrate utilization

Substratproduktion Kynast-Löcke, Germany: **Jürgen Kynast**

Substrates with a secondary structure: a solution for substrates with too fine particles

Sylvan, France: **Christelle Chevalier**

Influence of spawn recipe on incubation and yield

TEB VERD, Spain, **Carlos Tarrago**

Disabled people involved in commercial mushroom production

WUR, Netherlands: **Anton Sonnenberg**

White rot fungi: from consumption of mushroom to application in the biobased economy

WUR, Netherlands: **Johan Baars**

Development of a second strain of sporeless *Pleurotus ostreatus*: progress and challenges

Amycel, France, **Daniele Borsato**

Importance of the growing parameters for the cultivation of Oyster mushrooms

SPONSORSHIPS

PLATINUM 15 000 €

- Four conference registrations
- Very prominently displayed name on banner and sponsorship boards
- Company logo and web link on conference website
- 1/2 page color ad in Conference Program and Exhibitor Guide
- Sponsorship acknowledgment in all conference printed materials
- Company promotional literature included in registration packet
- Possibility to use separate meeting room
- Exhibit table

GOLD 10 000 €

- Two conference registrations
- Prominently displayed name on banner and sponsorship boards
- Company logo on conference website
- Sponsorship acknowledgment in all conference printed materials
- Company promotional literature included in registration packet
- Exhibit table

SILVER 5 000 €

- One conference registration
- Displayed name on banner and sponsorship boards
- Company logo on conference website
- Sponsorship acknowledgment in Conference Program and all conference printed materials

BRONZE 500 €

- Name mentioned on banner and sponsorship boards
- Sponsorship acknowledgment in Conference Program and all conference printed materials
